ATLAS RECOVERY

CLINICAL PARTNERSHIPS
Colorado | Outpatient telehealth
Veteran-owned

Specialized OUD care.
Connected to your clinical team.

Atlas Recovery provides opioid use disorder (OUD) treatment for adults physically in Colorado during visits. Our care complements the work of referring clinicians and organizations.

Clinical services

- OUD evaluation and individualized treatment planning
- Buprenorphine (Suboxone) initiation, continuation, and monitoring
- Medication management and recovery-focused psychiatric support

Coordination that preserves continuity

Patients can continue with their existing therapist, psychiatric provider, or other care team. With appropriate patient authorization, Atlas coordinates care and shares relevant updates.

A clear referral pathway

1. Send a secure referral. Use the professional referral form linked below.

2. Atlas contacts the patient. We aim to contact new referrals within one business day, often the same day.

3. Coordinate ongoing care. Confirm communication preferences and share relevant updates with appropriate authorization.
